

# Automatic Tire Inflators

## Single Tire Application (Indoor/Outdoor Use)

- Weatherproof and vandal resistant enclosure makes it ideal for almost any indoor or outdoor location
- Inflates or deflates automatically • Accurate to within .3 psi
- 1/4" inlet & outlet • Maintenance free
- Self calibrates every 6 minutes • Private label program available

## Heavy Duty High Volume Application

- Designed specifically for inflating large OTR tires or multiple tires
- Indoor/outdoor use • Inflates 1 to 4 tires simultaneously
- 1/2" inlet maximizes air flow • Accurate to within .3 psi
- Multiple purge function available for N2 conversion

## Multi Tire Application

**89-BAT (Rechargeable Battery)**

- Designed for converting multiple tires
- Equipped with "TOP OFF" & Multi Purge features
- Indoor/outdoor use • Accurate to within .3 psi

## Over Inflation System

- Utilizes 1/2" inlet maximizing air flow • Equipped with emergency stop control • Accurate to within .3psi
- Dual LCD screens • Leak detection test
- Multiple purge cycle settings • Preset feature stores the 3 most common pressure settings
